Description

Mojo for Suppliers is another interactive dashboard in the Mojo ecosystem.

Designed to encourage suppliers to answer financial and other queries themselves, without having to call you (eg "when will my invoice be paid?"), it also allows them to upload invoices directly into your approval process, manage and maintain compliance and

conformity information, and ensure that their contact details are all correct.

You can share the Mojo for Suppliers app with any number of suppliers without additional licensing costs, and if a supplier has multiple branches, it can accommodate that too.

Like all Mojo apps, Mojo for Suppliers is protected by industrial strength security, to prevent any compromise to your data.
